## QUIET HALLOWE'EN IN TOWN

There was no general celebration of Hallowe'en in Reynoldsville this year, but numerous social parties were held, and not a few of the young people donned costume and had an evening of fun on the streets. The eagerness which the younger element revival of Harriet Beecher Stowe's "Uncle | shows to masquerade on Hallowe'en should iend encouangement to a movement for a really large celebration of the night next year. Reynoldsville was the first of the towns in this part of the state to hold a big Hallowe'en Masquerade, but unfortunately neglected to make it an annual affair. Since Reynoldsville's celebration, many other town's bave taken it up and it is always a success.

### THE LOCAL PROHIBITION RALLY

The visit to Reynoldsville of Messrs Larkin, McConkney and Watkins, candidates and speakers for the Prohibition party in Pennsylvania, drew out a fair crowd last Friday night and they were delightfully entertained by the gentlemen for two hours. The Prohibitionists have little love for either of the two old parties and the Berryites look much the same to them as the parties they sprung from. Larkin will not be elected governor, but his campaign speeches will change enough votes to materially affect the votes of the bigger men.

# UNIQUE "SWAPPING"

One of the most unique Hallowe'en parties ever held in Reynoldsville was given by Misses Hallie Burns and Faye Me-Connell to about s'xty young people in Montle's hall Priday evening of last week. The hall was decorated in the spirit of Hallowe'en and gave those present the feeling of moving among things mysterious and weird. The only light came from a palely gleaming moon in one corner of the room and from a few Japanese lanterns while on the walls black cats seemed stealthily to creep around, witches on their broomsticks glided through the air, and grotesque faces peered out from unexpected corners at the merry crowd. Shocks of corn fodder, with pumpkins and ground pine heightened the effect.

For the first fifteen minutes the time spent "swapping" packages, after which there was the fun of fortune telling. Fine refreshments were served about ten o'clock, and half an hour later dancing commenced and continued until the moon in the corner grew pale. The music was furnished by the Bohren and Martin orehestra. The "swapping" party was voted one of the best social events of the season.

# LAND SHOW WOULD PROVE **DECIDEDLY INTERESTING**

We would like to see a Land Show held in Reynoldsville. More than once the Star has called attention to the opportunities that are open for development of the farming land near town, and we believe that a show of this nat vould result in a display of the products of unity that would surprise all. During to, summer a display of the products of numerous instances of successful fruit culture were noted, and now, at the close of the season, reports from the farming regions are to the effect that the potato crop has been extraordinarily large. Not only was the yield plentiful, but the tubers were of exceptional size. One farmer, Charles Dean, reports picking up at random twenty potatoes from his bin, and when weighed, they made a total of sixty pounds, an average of three pounds to the potato. The reports from Hormtown, from the Emerickville, Beechwoods and Prospect regions all indicate that the farmer in Jefferson county has reason to be

the most contented of men this winter. Thursday we were shown a potato grown on the farm of M. J. Owens, near Reynoldsville, which weighed three and onehalf/pounds and measured, twenty-three inches in circumference the long way and fourteen and one half inches the other. It was a monster and we have seen its equal but once before, in that instance the potato having been grown in Colorado and shipped east. Mr. Owens states that while this one was exceptionally large, he has many bushels more which are but slightly smaller in size and will average about two and one half pounds.
